

Safe in our hands.

An extended warranty

A close-up photograph of a person's hand holding a small, intricate engine component. The hand is positioned on the left side of the frame, with fingers gripping the part. The engine component is detailed, showing various mechanical parts like belts, pulleys, and a yellow filter. The background is a soft-focus green lawn, suggesting an outdoor setting. The overall image conveys a sense of precision and care in machinery maintenance.

- Maximum of 5 years or 10,000 hours.*
- Available on all machines with an hour meter
- Available on machines up to 6 months old
- Transferable to a second owner
- Fully supported by JCB

*Hours and time period varies per machine

for total peace of mind.

What's covered?

JCB PowertrainCover protects against manufacturing or material defects on the following components:

Wheeled machines:

- Engine and ancillaries
- Axle assemblies
- Transmission assembly
- Hydraulic pump (where applicable)

Tracked machines:

- Engine and ancillaries
- Swing motor
- Swing gearbox
- Track Motors
- Hydraulic pump

And all internal components associated with these items.

Qualifying conditions

To qualify for JCB PowertrainCover, machines must be serviced by an authorised JCB dealer using genuine parts and lubricants, and where fitted, have JCB LiveLink active for the duration of the contract period. Full terms and conditions apply.
